CyberStation User Guide

What is CyberStation?

CyberStation.com is an E-Commerce gaming café reservation platform to rent gaming stations. It is built using HTML, CSS, JavaScript, and PHP. It uses the Model-View-Controller (MVC) design pattern as its backbone.

1. How to book a reservation

1.1 Landing on the home page, navigate to the navigation bar and click on “Reserve Now”.

1.2 After accessing the reservation page, make sure to select and fill all the required fields.

1.3 Finally, after completing all the fields and pressing submit, you are redirected to a verification page where you are required to enter a 2FA code sent to the entered email.

1.4 Lastly, after completing the 2FA, the reservation is confirmed, and the details are sent to your email, and you are redirected to a confirmation page.
